

A stylized circuit board layout with the word "bubbles" in the center. The layout features a complex network of black lines representing traces, with various circular and square pads at the ends. Four large circles are positioned at the corners of the board. On the right side, a series of parallel lines leads to a vertical row of ten circular pads. At the bottom, there is a horizontal row of ten circular pads, with a square pad at the far right. The word "bubbles" is written in a bold, black, monospace-style font in the center of the board.
